Loren
Dear Mr. Morton:

Re: Revision Pages, Moab Salt Mining and Reclamation Plan, M/019/005, Grand County, Utah

I am passing along to you copies of Moab Salt's latest response letter and copies of the page revisions, to be inserted into your copy of the Mining and Reclamation Plan. This material was sent to us in response to the Division's February 23, 1989 review letter. This material addresses the main body of that letter and, in part, items listed on Attachment A of the same letter.

This material covers concerns where the Division has taken the role as the lead agency. Because some of this material may overlap with your permitting concerns, this package may be of interest to you. The Canyon Collection System and Storm Runoff plan was not included with this packet, as this is still being studied and apparently is being negotiated between BWPC and the operator.

The Division sees no gross inadequacies with this material, and will probably proceed with tentative approval. The decision to proceed with tentative approval will be made by July 7, 1989. If your agency would like to comment on any of the enclosed material, please get back to me before July 7, 1989.

Sincerely,

Holland Shepherd
Reclamation Specialist
